

BORED

Indie-pop with a lazy mid-tempo bounce, finger-snapped groove, rubbery bass, and a sparse verse-to-chorus lift; verses stay close-mic and conversational, pre-chorus opens with stacked harmonies, chorus lands with tight doubles and a chantable repeat, Add ear candy with tape-stop blips, little synth sparkles between lines, and a soft clap swell into each hook, Bright, polished, intimate mix with a slightly sleepy edge

[Verse 1]

I watched the clock
It watched me back
The fan went round
And nothing cracked

My phone just sat there
Face down, cold
Even the ceiling
Looked bored and old

[Pre-Chorus]

So I stretched my name
Across the day
I tried to move
It stayed away

[Chorus]

Bored, bored, bored
Say it to my face
Bored, bored, bored
Take me any place
I need a shake
I need a spark
Bored, bored, bored
Cut through the dark

[Verse 2]

I made toast slow
Burned one side
Read the same text
Three times, sighed

The hallway echoed
With my steps
I lost an hour
And nothing left

[Pre-Chorus]

So I drew a line
Across my palm
I tried to fake
A little calm

[Chorus]

Bored, bored, bored
Say it to my face
Bored, bored, bored
Take me any place
I need a shake
I need a spark
Bored, bored, bored
Cut through the dark

[Bridge]

If you call me now
I will run
If you say my name
I'll come undone
Just one small mess
One loud sign
Anything real
To break this time

[Chorus]

Bored, bored, bored
Say it to my face

Bored, bored, bored
Take me any place
I need a shake
I need a spark
Bored, bored, bored
Cut through the dark
